# Attollo Legacy

The Attollo Legacy bariatric Care Chair has been designed specifically to provide bariatric users with a modern, sturdy and attractive seating solution. It delivers incredible comfort and enhanced postural functionality, whilst offering more support adjustments than any other bariatric chair on the market today.

The Attollo has an interchangeable backrest support and patented adjustable seat depth and width options.

Manufactured in Britain to the highest standard of design, the Attollo Legacy offers users variable backrest and pressure relief.

It has multi-action, tilt-in-space, backrest recline and leg-rest elevation. It has unique, independent strengthened scissor technology allowing leg-rest elevation to support a lower limb capacity of 15st & 25st.

This bespoke, made to measure chair is fully customisable and is available in a variety of fabrics and colours to accommodate all bariatric users needs.
